

Chief of Engineering City of Baltimore Department of Public Works

Salary commensurate with experience

The City of Baltimore, Department of Public Works is seeking a highly qualified, results-oriented professional to serve as Chief of Engineering and Construction Division.

Education and Experience Requirements:

The person selected for this position must demonstrate strong leadership abilities with expertise in managing, planning, directing and administering activities associated with Engineering and Construction activities in a large utility environment. The successful candidate must have a Bachelor's Degree in Civil, Electrical or Mechanical Engineering; A Professional Engineers License in the state of Maryland; and ten (10) or more years of relevant experience in management of large utility design and construction projects. For this position, a PMP Certification is preferred. Candidate must have a valid Maryland Class C Non-Commercial driver's license or an equivalent driver's license and eligible to obtain a Baltimore City driver's permit.

The position will supervise directly or indirectly, all personnel within the Office of Engineering and Construction including managing subordinate professional program management staff engaged in the planning, analysis, development and management of major, complex linear and vertical infrastructure capital project delivery; and associated project planning and controls reporting on all projects. Duties will also include developing annual program objectives and performance metrics, managing day-to-day priorities for timely and efficient execution of CIP program projects, activities and tasks. In addition the successful candidate will represent the Department at and/or all various municipal meetings, hearings and boards.

Interested candidates must send a detailed resume with your salary request. Resumes will be accepted until the position is filled.
